PIONEER RESIDENT OF COUNTY
STRICKEN WITH APOPLEXY
WHILE DRESSING.

OVER HALF CENTURY IN OFFICE

Has Been Closely Identified With the
Circuit Clerk's Office for
Fifty-Three Years.

Ira W. Lewis, deputy circuit clerk,
who has been a resident of Lee coun-
ty since 1842 and who has been iden-
tified with Lee county's official life
for over half a century, passed away
suddenly at his home, 406 Galena av-
enue, at 8 o'clock this morning, death
resulting from apoplexy, with which
he was stricken while dressing.

End Came Quickly.
Mrs. Lewis, who had prepared
breakfast, wondering at the delay in
her husband's response to the call for
the meal, called to him and receiving
no response, went upstairs to his
room and there found him on the bed,
where he had evidently fallen. Physi-
cians were summoned immediately,
but the stricken man passed away
soon after their arrival.

Funeral services will be held at
the home at 3 o'clock Friday after-
noon, Rev. F. D. Stone, pastor of the

MORE FREIGHT CARS BURNED AT MIDWAY

I. C. AUTHORITIES SUSPECT IN-
CENDIARIES FOR DESTRU-
TION

Ten freight cars belonging to the
Illinois Central railroad company
which were standing upon the side-
track at Midway, were burned up
Monday evening.

The cause of the fire is unknown
and the circumstances surrounding it
are suspicious and a thorough in-
vestigation will be made. The cars
were comparatively new and had
been placed upon the siding for use
in La Salle.

This is the second destruction of
freight cars by fire which has occur-
red at Midway within two months.
On the last occasion a string of
twenty-eight cars was burned and
several buildings belonging to the
railroad company were also burned.

It is thought that the cars were
set afire by some malicious person,
whose sole object is to destroy the
railroad property.

Italian Invasion Extends Over All Austrian Frontier

No Hard Fights

An official communication from
Rome indicates that the Italian inva-
sion of Austria has extended over al-
most the whole frontier and that the
Italian forces are occupying strate-
gic positions. Austrians are retir-
ing every where and there has been
little heavy fighting thus far.

Reach Agreement
Rotterdam says Germany and Italy
have agreed neither to intern civil-
ians nor to seize private property.

Rome, May 26.—Italy struck the
first heavy blows of her war against
Austria, the most powerful being the
invasion of Austrian territory by an
army of approximately 120,000 men
and the capture of four towns and the
heights between the Idria and Osenna
rivers.

The crossing of the Austrian bor-
der was accomplished with compara-
tively little resistance. It is believed
to have been the first move in a cam-
paign laid out by the general staff
for a sweeping invasion of Austrian
territory. The towns of Caporetto,
Cernom, Cervignano and Terzo were
taken. They lie along the two rail-
roads running through the frontier
district toward Trieste and are only
a short distance from the Austrian
railway center of Goritz.

In addition to this movement Ital-
ian cavalry forces are said to have
crossed the line from the Venetian
plains and moved toward Trieste. The

VETERANS OF OLD THIRTEENTH HELD THEIR ANNUAL REUNION

Continued from Page 1.

Deaths Within Year.

Since the last reunion a year ago there have been reported to Secretary Hevenor seven deaths as follows: Co. A, H. C. Palmer, Albert Kelley, W. H. Woodyatt; Co. K, Wm. I. Walker; Co. G, Geo. W. Knowles, Benj. A. Frye; Co. K, Wm. Potter.

The reunion was called to order for its business meeting yesterday afternoon, May 25th, 1915, at 2 o'clock in G. A. R. hall in Dixon by President C. H. Noble. Rev. F. D. Altman was asked to give the prayer.

Secretary R. M. Hevenor read his report of the minutes of the previous meeting, which was approved and placed on file. The secretary then read the list of deaths of members of the 13th that had been reported to him during the past year. The names of the comrades who had answered the last roll call during 1915 are:

Co. A—H. C. Palmer.
Co. A—Albert Kelly.
Co. A—W. H. Woodyatt.
Co. G—G. W. Knowles.
Co. G—Benj. A. Frye.
Co. D—Wm. L. Walker.
Co. K—Wm. Potter.

The secretary then read a list of names of those members of the regiment to whom letters had been sent by him and whose letters had been returned unclaimed. Some of these comrades are believed to have died and others have moved and have not notified the secretary of their address.

Letters Returned.
Co. F—Thos. Bradley.
Co. D—T. G. West.
Co. K—Wm. Potter (deceased).
Co. D—W. L. Walker (deceased).
Co. G—W. H. Shear.

Co. D—C. Hanson.

Co. E—John Van Sickle.
Co. G—Benj. A. Frye (deceased).
Co. H—John Martin.
Co. G—Geo. W. Knowles.
Co. B—Ira Doty.

The secretary was instructed by motion and vote of the members present to write all Old Soldiers homes in the country asking the adjutant to give him the names of any members of the 13th Illinois Infantry who might be in their institutions and to also report to him the death of any such members during the last year, and to further request that in future the various soldiers' homes notify the secretary of the 13th Illinois Infantry association of the presence or death of any of the comrades of the 13th in their homes.

Secretary Hevenor announced that he had gotten out a new roster—possibly the last one that would ever be gotten out for the organization—containing something over 120 names, and he earnestly solicited the aid of the members of the organization in keeping the roster up to date. He asks the comrades to notify him from time to time during the year when they learn of the death of a comrade or any information affecting the organization, as it is difficult for him to keep in touch with it all alone.

President Noble took the floor here to explain that he had personal knowledge of the great amount of patient and painstaking labor that Secretary Hevenor had put in on the duties of his office, which feeling was concurred in by the various members who had occasion to know of his work.

Secretary Hevenor next read the list of letters received from absent members or the family of deceased veterans of the 13th. Letters were received from the following:

N. Woods, Detroit, Mich.

Co. J—J. G. Everest, Chicago, Ill.

Co. K—Jas. Farrell, Salt Lake City, Utah. Members present asked that several of the letter be read to the assembly and accordingly the letters of Mrs. Venice Cushing, Nellie A. Kelly, daughter of Albert Kelly, John McCleary of Co. B. and Harry Von Houten of Co. A. were read.

A vote of thanks was tendered the Dixon Evening Telegraph for its consideration to the veterans of the 13th in publishing the minutes of its meeting in full and complete detail, an action which has been taken by the Telegraph for many years. The paper these minutes are published in is used as the official record of the meetings of the annual reunions.

C. W. Snyder of New York City, a member of Co. A, presented a resolution thanking Mr. Rice, proprietor of the Nachusa Tavern, headquarters of the reunion, for this courteous treatment of them. The resolution was passed unanimously.

A vote of thanks was also tendered J. J. Dauntler for a box of cigars presented the gathering of veterans, as has been his practice for a period of ten or more years.

Capt. Henry Dement read some exceedingly interesting passages from an old newspaper captioned "Our Regiment," which was printed, according to the information contained therein, by the "types" of the 13th Ill. "every now and then" at Camp Rollo, Mo. Comrade Dement read of the joys and sorrows, though mostly joys, of camp life, as vividly depicted by the editors of the ancient newspaper.

Comrade Henry Dement spoke some very tender and beautiful words in eulogy of three of the members of his company, A, of the 13th Ill., who have passed away during the past year, namely: W. H. Woodyatt, Albert Kelly and H. C. Palmer. Of the character, courage and actions of these men in war time and in civil life, Captain Dement spoke in the highest terms. He described them all as being the quiet, safe, steady sort of soldiers whom he could always be sure were right in their places, tramping to their duty every day. Since the war these men have proved that they had as many good qualities for civil life as campaign life and he told of the way these men had made good in the different vocations in life that they took up. W. H. Woodyatt, Comrade Dement said, had been sheriff of Lee county, town marshal and chief of police of Dixon for over forty years and all Lee county knows the worth of this man.

Officers for Life.

Several years ago the organization voted to make the officers of the association officers for life, and accordingly there was no election of officers. The motion to make the executive committee the same as last year carried unanimously and accordingly the executive committee continues to be composed of Chas. H. Noble, Co. A, president; O. B. Wyman, Co. C, vice president; and A. Haberer, Co. B.

Obituary Committee.

An obituary committee was appointed by motion and vote of the members assembled for the purpose of drafting resolutions of respect and love for the memory of the comrades that has passed to the final roll call during the past year. The committee was composed of Comrades Dement, Lowery and Snyder.

Adjournment was taken until 6 o'clock to attend the banquet prepared by the ladies of the W. R. C. in the basement of the People's church. The banquet in the church was very delightful and the delicious dinner was the more enjoyable for the music by a quartet composed of Mesdames

MONUMENT MARKS BRADDOCK TRAIL

SITE OF BATTLE OF EARLY
HISTORY OF COUNTRY SCENE
OF UNVEILING.

(Associated Press)

Alexandria, Va., May 26.—Marking the point from which Major General Edward Braddock and his force of British regulars and Virginia troops with Colonel George Washington as aide-de-camp, departed from here in April, 1755, on the disastrous expedition to take Fort Duquesne, the present site of Pittsburgh, Pa., in the war against the French and Indians, an interesting monument was unveiled here today by the Society of the Colonial Dames of Virginia.

Many members of the Society of Colonial Dames, the Daughters of the American Revolution and other patriotic societies from various parts of Virginia, the District of Columbia, Maryland and Pennsylvania witnessed the presentation of the monument to officials of the city of Alexandria. Many of those present will take part tomorrow in the unveiling of a similar monument at Winchester, Virginia.

One of the old British cannon abandoned here by General Braddock soon after the battle of the Clouds, now marks the monument.

General Braddock's expedition, plans of which he related to Benjamin Franklin in a conference at Fredericktown, was to march to Fort Duquesne.

"After taking Fort Duquesne," the General is quoted as saying, "I am to proceed to Niagara; and, having taken that, to Frontenac if the season will allow time, and I suppose it will, for Duquesne can hardly detain me above three or four days; and then I can see nothing to obstruct my march to Niagara."

In the battle of Fort Duquesne, July 9, 1755, General Braddock was mortally wounded. Colonel George Washington was the only member of his staff to escape unhurt. The British and Colonial lost 977 officers and men, killed or wounded out of 1,459 engaged, while the French loss was trifling, and only the genius of Washington saved the survivors from massacre.

General Braddock died July 13, 1755, at Great Meadows, about 60 miles from Fort Duquesne to which place the remnants of his army retreated. He was buried at a point now seven miles east of Uniontown, Pa.

SUNDAY CLOSING WAR STARTED IN CHICAGO

Warrants Issued for Four Large
Hotel License Holders.

Chicago, May 26.—War on the Sunday saloon in Chicago started in earnest when warrants were taken out for the holders of the bar room licenses of four of the leading hotels of the city. The warrants charge violation of the state law requiring that saloons be closed on Sunday and were issued by Judge Prindiville at the request of Arthur B. McCord, counsel for the recently organized Chicago Citizens' committee, which entered the reform arena with the announced intention of closing the saloons on Sunday. The Hotel Owners' association has declared that it will fight the cases to the end. The dry forces hope to get convictions in these first cases and thus force the city officials to close all the 7,000 or more saloons of the city on Sunday.

The warrants are a reply of the drys to their defeat in the city council when Alderman Merriam's ordinance to prevent the sale of all spirituous liquors was referred to the license committee.

The warrants issued were for the Hotel LaSalle, Hotel Sherman, Congress hotel, Palmer house.

KELLY GIRL BACK TO MOTHER

Heiress Renounces Associates Amid
Broadway White Lights.

New York, May 26.—Eugenia Kelly's fondness for the gay white way and its frivolous companions—faithless to her in trouble—gave way to reawakened filial love.

Humbly repentant, her haughty unconcern gone and promising to scorn in the future the habits and associates of Broadway's luring lights, the girl returned to Mrs. Helen M. Kelly, her mother, and the charge of incorrigibility against her was dismissed by the court.

It is the regular kind of weather Dixon usually gets for carnivals.

The skies today, therefore, resembled Chris Blackburn's language upon his arrival in Sterling with his auto Monday to find that the Mrs. had arrived in Dixon at about the time he was leaving here.

A Chinese queue is surely an odd looking thing—and on the other hand it isn't a durned bit odder than our way of spelling it.

Holland is a water-tight little country located half way between peace and war on and part way under the North Sea.

It has about 14,000 square miles, but never stays the same. One day the sea washes away a slice of it and the next day the Hollanders builds a dyke and steals a township from the fishes. Almost half of it is below sea level. It is the only submarine sea country in the world.

Holland is famous for canals, tulips, cheese, gin, windmills, diamond cutters, neatness, thrift, history, house gables and extravagant pants. No country has been written about more extensively and no country is toured more enthusiastically by Americans.

It is indeed a pleasant sight to ride through Holland watching the sturdy farmer clad in 11 pairs of pants navigating a boat down a four foot canal with a load of hay to trade for phonograph records. Holland has more windmills than the United States senate and so many canals that a catfish could vote in every precinct of the country if it had a guide. Only about 10,000 square miles of Holland are fit to live on, but they support 5,500,000 people. If the United States was as densely populated as Holland it would have 1,500,000,000 people and some of the railroads would have to put on another passenger train. A citizen of Holland will pasture a cow, fatten 39 hens and raise a canal boat full of vegetables on a tennis court. Milk and beef are very costly in this country because we are too crowded to continue in the cattle business but Holland raises vast quantities of fat cows and ships case-hardened Edam cheeses all over the world with the strict understanding that belligerent countries shall not use them for ammunition.

Holland has the fourth greatest sea port in the world. It owns the mouth of the Rhine, had the greatest flood in history and averages more ducks per square mile than any other country.

Holland has also more history to the square inch than any other country. It was once the greatest sea power in the world and once Spain very nearly turned it into an old fashioned Cuba. But the Hollanders broke in their dykes and the Spaniards went home in boats. The Pilgrim fathers sailed from Holland and the English language was invented up in Friesland so long ago that it doesn't know its mother tongue today.

The world should be proud of Holland. It has shown what can be done with a little liberty, a large amount of patience and a catfish resort.

Mr. Aufholz' advertisement will be seen elsewhere in this paper.

ILLINOIS WATERWAY BILL PASSES HOUSE

Measure Is Ratified by Vote of 107 to 41.

Springfield, Ill., May 26.—The house

waterway committee bill, carrying an appropriation by bond issue of \$5,000,000 for the construction of a waterway from Lockport to Utica, has passed the house by 107 to 41.

The passage of the bill was forecast by a test vote brought on motion of Representative Igoe to table a motion by Representative Hubbard to postpone final consideration of the bill until next Thursday to allow Congressman Henry T. Rainey of Carrollton and Cleo J. Lindley of Greenville to talk against the passage of the measure. Igoe's motion carried, 50 to 42. He was supported by Representative Maucker and Lee O'Neil Browne.

Hubbard's motion to postpone a vote was backed by Representatives Denahue, G. H. Wilson, Ellis and Turnbaugh.

The senate passed the bill making Good Friday a legal holiday.

Bookplates.

No book collector should be without a bookplate, and a bookplate once inserted in a volume should never be removed. When the plate is that of a good collector it constitutes an adornment and adds a certain interest and value to the volume. I was once going through the collection of a friend, and observing the absence of a bookplate, I asked him why it was. He replied, "The selection of a bookplate is such a serious matter."—Atlantic.

Knitting.

Knitting is a Scotch invention of the fifteenth century. Soon after its invention a guild of stocking knitters was formed, with St. Fiacre as its patron saint. Hand knitting was supplemented by machinery as early as 1580, when William Lee invented the knitting frame.

Times Change.

"What is the principal difference between modern and ancient times?" "One of the main points was that the modern earn their living, while the ancient arned their dead."

Specifications Furnished.

"What does our party stand for?" asked the machine sefator. "You, for one thing," replied a raucous voice from the rear of the hall.—Philadelphia Record.

In this collection are many canes that are artistic and others that are merely curious in shape, as well as some made for emergency uses. Among the latter are a sketching cane with drawing materials stored in the handle, a number equipped with match safes, mountain climbing canes with sharp spiked ferrules, an officer's "swagger stick" and sword and gun canes of various types. The most interesting feature of the exhibit perhaps is the historical element. —Popular Mechanics.

BECKER MUST DIE FOR MURDER.

Charles Becker, one time police lieutenant of New York City, respected and honored and wealthy, must die in the electric chair for the murder of Herman Rosenthal, the gambler whose death Becker is said to be responsible for, through a gang of gunmen he hired to kill Rosenthal. The four gunmen met their deaths in Sing Sing prison. Now Becker is to follow them, for he is held to be as guilty as the men he hired to do the work, which is justice. For Becker there is bound to be a little pity, just as there is for any poor wretch who must pay the penalty for his sins, but the heart of the nation goes out to his wife and kiddies. They are the ones who will pay the most for the sins of Becker.

If Becker had Rosenthal murdered, as it seems he did, he deserves the punishment which he will get, but it seems as though things are not arranged quite right when the wife and children have to do the biggest share of the suffering.

A MONUMENT FOR COLONEL WYMAN.

The suggestion of Captain Everest, a veteran of the Old Thirteenth, that a monument be erected in memory of Colonel John B. Wyman, the noble colonel of the Lee county regiment who died fighting for his country, is a splendid one and the patriotic organizations of this county should see to it that the idea is carried to completion. The memory and glory of the gallant Colonel and the boys of the fighting Thirteenth would be most appropriately preserved for the generations that are to come and who will have no survivors of the war times to tell them of the heroic deeds of Colonel Wyman and his soldiers.

ANOTHER AMERICAN SHIP INJURED.

Another American ship has been torpedoed, or struck by a mine, and the peculiar part of the incident is that the ship left England and was bound for America, loaded with ballast and carrying, of course, no contraband. The first reports coming to this office today say that the vessel was struck by a torpedo and badly damaged, though not sunk. Later reports say that the officials at Washington believe she must have been struck by a floating mine, for it is unbelievable that any one of the warring powers would deliberately destroy an American boat bound for home with no contraband on board.

Dixon enjoyed having the veterans of the Old Thirteenth here for their reunion again this year and hopes to entertain these gallant old "boys of '61 to '65" many, many times again.

STATUS QUO VIOLATED
BY AUSTRIA, IS CLAIM

Italy Says War on Servia Up-
set Triple Alliance.

Washington, May 26.—Italy finds in Austria-Hungary's harsh action to Servia last summer, without prior consultation with Italy, the basis for her declaration of war against the dual empire, according to the official presentation of Italy's case handed to Secretary Bryan by Count Celi, the Italian ambassador. Italian statement as given out by the embassy here says in part:

"The triple alliance was essentially defensive and designed solely to preserve the status quo, or in other words the equilibrium in Europe. That these were its only objects and purposes is established by the letter and spirit of the treaty as well as by the intentions clearly described and set forth in official acts of the ministers who created the alliance

and confirmed and renewed it in the interest of peace which always has inspired Italian policy.

"But Austria-Hungary severed the treaty by her own hands. She rejected the response of Servia, which gave to her all the satisfaction she could legitimately claim. She refused to listen to the conciliatory proposals presented by Italy in conjunction with other powers in the effort to spare Europe from a vast conflict certain to drench the continent with blood and to reduce it to ruin beyond the conception of human imagination and finally she provoked a conflict."

CLOUDBURST HITS ILLINOIS

Chicago and Peoria Are Flooded—
Seeds Washed From Fields.

Chicago, May 26.—A rain storm throughout central Illinois that swept Chicago in a miniature flood and amounted to a cloudburst at Peoria fell at noon, deluged pedestrians, inundated basements, choked sewers and destroyed crops, flowers and foliage. At Peoria nearly two-thirds of an inch fell within fifteen minutes. Chicago was flooded with 49 of an inch within the same time. The greatest damage was done in the country, where seeds were washed from the fields and springs converted into freshets that swept away fences and small bridges.

The use of telegraph wires in northern Illinois was greatly curtailed. One telegraph company found itself suddenly cut off from St. Louis, and another from various Illinois points.

CATTLE MEN SENT \$1,000,000

Vast Sum Paid Out by Illinois in
Twenty Minutes.

Springfield, Ill., May 26.—The state of Illinois established a new record for the paying out of state money. In twenty minutes State Auditor James J. Brady, with Chief Clerk John S. grave and the official clerical staff, sent out warrants for an even \$1,000,000, distributed among 740 different individuals and firms.

The money went toward the reimbursement of live stock owners for losses of cattle in the foot and mouth disease epidemic. Governor Dunne insisted on prompt action as soon as the legislature authorized the appropriation.

CONTENDED.

I have a roof that doesn't leak, I have a suit of clothes to wear, and when rain falls or tempests shriek, I bask in my old rocking chair. I have a stove that keeps me hot, I have a corking book to read, I have a soapstone in the pot—what more does this mortal need? The gilded gauds for which men sigh are all with disappointment fraught; the thousand things that wealth will buy are useless gimcracks when they're bought. I might go jaunting on to Rome, or see the storied joints of Greece but I am happy here at home, and travel would disturb my peace. The wealth of kings can't make you glad, nor silk attire, nor diadems; a calm, contented mind, my lad is better than a ton of gems. You won't find happiness, dear, by seeking it in distant lands; while you go searching far and near, be bind your door it meekly stands. I have a kettle full of soup, I have some grapejuice in the flask; there is a rooster in the coop—what better could I mortal ask?

What Place Is This?

You have been on the train hundreds of times and heard this question asked whenever the train stops at a station or goes through a town. This is especially true at night when, on account of the lights, many times a town appears larger than it really is. The answer is wrong in 90% of the cases, showing that the traveling public know very little of the locations of towns they pass through.

The up-to-date towns are at the present time placing electric signs with very large letters, containing only the name of the town. These signs are generally placed one to two hundred feet away from the train so they readily catch the eye of the passengers, and are easily read, even though the trains do not stop. It is hard to imagine any better advertising than this. When people are riding on the train as a general rule their minds are not occupied, and are very receptive. The name of the town in letters, ten feet high of startling brilliancy impresses them very decidedly and they never can thereafter forget the road that the town is on or about where it is.

Dramatic Notes

FAMILY THEATRE.
The last half of the week at the Family will be devoted to vaudeville and the management has booked an excellent bill consisting of Elliott and Williams in songs of today; Dean, Dove and Dean, comedy dancers, and The Blanches in a new comedy act. The usual three reels of pictures will be shown.

DIXON OPERA HOUSE
The Dixon Opera House will open for the summer next Sunday, May 30th. The Enterprise Tabloid Stock Company, a classy Chicago organization, has been engaged for an indefinite run, changing their plays four times a week; also three reels of up-to-date movies will be given, changing every night. The wonderful serial picture, "The Diamond from the Sky," will be shown, a chapter each week. The opening for the Enterprise Stock Company will be a dramatization of the world famous novel, "Thorns and Orange Blossoms." Prices will be ten cents for adults and five for children, with a Saturday matinee.

PRINCESS THEATRE.
Tonight Manager Slothower has booked a feature of special interest entitled "The Spell of the Poppy," a Majestic feature with Eugene Pallete and Lucile Young in the leading roles, the romance of an opium eater. This story shows how an opium eater becomes a genius and so strong in his influence that his sweetheart also acquires a taste for it. The other pictures are a Princess comedy drama entitled "Movie Fans" with Billie Sullivan and Lorraine Huling in the leading roles, a domestic drama; and an American drama entitled "At the Edge of Things," with Vivian Rich and David Lythgoe in the leading roles, a strong drama of misapprehensions.

PALACE MUSIC HALL.
Beginning Monday, May 31, the Palace Music Hall will change its policy for the time being and will inaugurate a summer season of musical comedy. Looking about for the best that could be found in that line the management of the Palace selected the Winter Garden company in its biggest success, "Maid in America." This attraction, coming from the country's most famous playground, the New York Winter Garden, carries a record with it, having been the most sensationally successful of any of the revues produced in New York this season. And in a year that was noted for its platitude of revues, this is indeed some record.

"Maid in America" has a book by Harold Atteridge and tunes by Harry Carroll and Sigmund Romberg. It was produced by the master hand of Jack Mason and J. C. Huffman, who are responsible for the staging of the most of the Winter Garden successes. It has features galore, and of course several scores of Broadway beauties, for which the Winter Garden productions are noted. As the title implies, "Maid in America" deals directly with our own country and the opportunities for scenic grandeur have not been overlooked.

The Winter Garden company will give three matinees a week during the summer season, on Wednesday, Thursday and Saturday. The Wednesday and Thursday matinees will have the best seats at \$1, while the Saturday matinee will have a \$1.50 scale of prices.

SHIP TORPEDOED OFF IRISH COAST

(Continued from Page 1)

Not Seriously Damaged.
The Nebraskan was not seriously damaged. She was struck forward and her foreholds are full of water. She carried no passengers.

The foregoing was received by the British admiralty and was communicated to the American embassy. The steamer was 2824 tons net.

Part of Crew Remained
Forty of the Ryndam's crew remained aboard the vessel after the collision which occurred in a thick fog 150 miles from Ambrose. Much water in the Ryndam's hold resulted when the Cuneco's bow dashed into her. The Ryndam, conveyed by three battleships of the Atlantic fleet is making fifteen knots an hour under her own steam toward New York. She is heavily laden with foodstuffs and merchandise for Holland.

Vessel Is Under Way.
The crew returned to the vessel and got her under way. No lives were lost. She passed Kinsale, Ireland, at 11 o'clock today apparently bound for Queenstown. She was down at the bows, although proceeding under her own steam, and was flying the signal "I am not under control."

There were only six Americans aboard the Ryndam which carried a million dollars worth of cargo.

OFFICIALS AWAIT DETAILS

Washington, May 26.—Consul Skinner has cabled from London: "The British admiralty reports that the American steamer Nebraskan has been torpedoed." He added that he had received no direct report.

The news aroused more than ordinary interest here, but the officials are disposed to await results. Some could not understand why the ship, bound for the United States, in ballast, and therefore carrying no contraband of war, should have been endangered by a torpedo and they considered it possible that the Nebraskan struck a drifting mine.

MINE OR TORPEDO

New York, May 26.—The owners of the American steamship Nebraskan have received a message from the captain saying that the ship was struck by a mine or a torpedo, and is proceeding to Liverpool.

front sweep by the main army was forty miles in width. Official statements declare resistance was feeble.

Air Forces Active.

Activities of the Italian aerial force included further reconnaissances of Austrian positions in the Tyrol and Dolomite Alps. The aviators, however, were driven back by strong forces of Austrian airmen.

No further attempts were made by the Austrians to follow up their aerial attacks of Monday on the Adriatic coast cities and railway lines. Damage done there was slight and has already been generally repaired. Damage to the arsenal at Venice by the two Austrian aviators who shelled that city is denied, though several small fires are admitted to have been started with comparatively little damage.

In naval activities the chief move by Italy was an attack upon the port of Buso by a destroyer flotilla. The extent of the damage is not officially reported, but Italian troops were landed and seventy Austrians taken prisoners and sent to Venice.

Austrians Capture Italian Crew.

Vienna, May 26.—(Via Amsterdam.)—The following statement regarding the naval raid by Austrian warships on cities of the Adriatic coast of Italy Monday was given out here:

"During the naval action an Austrian aeroplane dropped four bombs near Venice. The arsenal there was set afire and seriously damaged. Near Porto Corsini there was a violent encounter in which the Austrian cruiser Novara, the destroyer Scharfschuze and a torpedo boat participated. Our losses were four killed and eight wounded. The Italians lost ten to twenty men. Ancona was bombarded by the chief portion of our fleet which caused considerable damage. Two steamers were sunk and the new wharf buildings were set afire. Near Barletta, north of Bari, an Italian turbine destroyer was put out of action and surrendered. The crew as well as the commander and the other officers were made prisoners."

ORGANIZE NEW LODGE THIS EVE.

Equitable Fraternal Union Will Have Lodge Here in Future

The Equitable Fraternal Union, a new fraternal insurance society, will be organized in Dixon this evening when thirty-one members secured by District Deputy Claude Sebree will meet to complete the local lodge. State Deputy Carr will be present to assist in the work.

Origin of Road Rules.

The origin of the rule for pedestrians to keep to the right dates back to a period when such things as roads were unknown. Before the road as we know it existed progress from place to place was accomplished by means of tracks or paths, used in common by mounted and foot wayfarers. As in early days every traveler carried his life in his hands and saw in every approaching stranger a potential enemy, so the unarmed man either retreated from the path or was beaten from it by an advancing stranger, if the latter were armed. When two armed men met, with shield on left arm and sword in right hand, they of necessity passed each other on the right, so as to bring shield to shield, thus completely sheltered, but with the sword arm ready to strike if needed.—London Globe.

Origin of "Watered Stock."

The expression "watered stock," which describes so well the expansion of the stock of a company beyond the value of the property, originated, it is said, in connection with Daniel Drew, who was once the wealthiest and most unique manipulator in Wall street. Drew had been a drover in his younger days, and it was said of him that before selling his cattle in the market he would first give them large quantities of salt to make them thirsty and then provide them with all the water they could drink. In this way their weight was greatly increased, and the purchaser was buying "watered stock."

Bobby's Fruitless Search.

Bobby heard his mother tell his father that her mother, who was ill, was in a comatose state and she must go to her at once.

Bobby immediately ran for his geography and looked diligently for some time through it. Finally he brought it to his father and said: "Father, I can't find the state of comatose in here. Will you?"—Judge.

Hoyle.

The father of whist, Edmond Hoyle, lived to be ninety-seven years old. His treatise on cards has been published in all languages, and probably no work except the Bible has passed through more editions. The original work appeared in London in 1742.

The annual tax levy in Dixon alone is over \$30,000 and this sum is handled by the treasurer and through him all the teachers are paid.

IRA W. LEWIS DIED SUDDENLY THIS MORN

Continued from Page 1.

at the end of the half century and over, during which he served the people of Lee county is "Well done." His first official work was in the position of deputy sheriff, following which, in 1868, he was made deputy circuit clerk, a position he filled for twelve years.

He was then elected circuit clerk and for twenty years he served in that capacity, taking care of the rapidly increasing duties of the office most efficiently and putting the work on a basis which has been followed since.

Retained By Rosecrans.

At the end of his twentieth year as circuit clerk he was again made chief deputy of the office, which position he held at the time of his death. Mr. Lewis was appointed circuit clerk to fill out the unexpired term of Wm. B. McMahan, who passed away last July, and E. S. Rosecrans, who was elected last fall, retained Mr. Lewis as his assistant.

There was no one in Lee county so familiar with the office and all that appertained thereto. He was ever prompt and systematic in the discharge of his duties and a well trained mind kept him in touch with the work of the office so that he could refer to any point or fact needed at a moment's notice.

Born In New York.

Ira W. Lewis was born in Broome county, New York, April 3, 1842, being a son of Hiel and Evaline Lewis, who came to Lee county in the year of their son's birth. In their family were six children, of whom Irwin Lewis of Palmyra, is now the only survivor.

On March 21, 1867, Mr. Lewis was united in marriage to Miss Marilla M. Williams, a daughter of Cyrus Williams who came to Dixon in 1839. She survives to mourn the passing of one who for nearly half a century has been her life-mate.

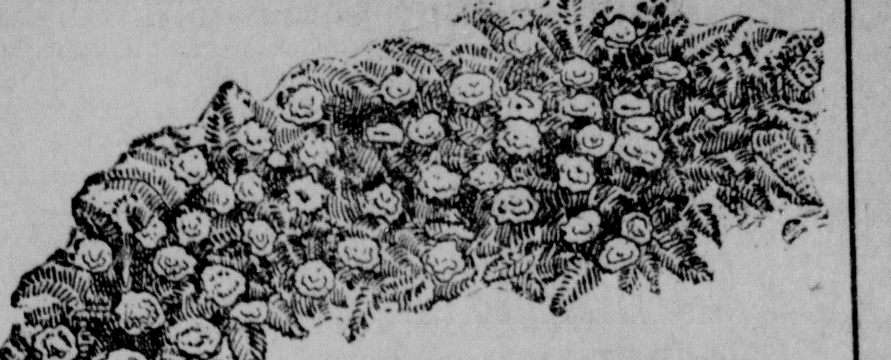

Was Clean Man.

Mr. Lewis was a staunch republican in politics, always working for the best and cleanest; and in his religious activities his work in the Methodist church has been manifest in the growth of the church and Sabbath school. He was also a member of the Modern Woodmen.

Mr. Lewis will be greatly missed in the administration of the affairs at the circuit clerk's office, in his church and in his large circle of friends. Over his public record there falls no shadow of wrong or suspicion of evil.

There was a wreck on the North western road near Clinton, Ia., early this morning and as a result all the through trains from the west were delayed. The fast mail train due here about o'clock was over three hours late and the other trains followed closely afterwards.

Sweetman & Son announce that they made no complaint whatever in the recent theft of tools from their merry-go-round, and that the assistance of the officers was enlisted by Norman Eberle, their engineer.

POISONOUS GAS CLEARS TRENCH

British Officially Admit Germans
Gained Line at Ypres.

THINK NEW ATTACK SOLVED

Sir John French, in Report, Says Assault With Poisonous Vapor Was Greatest Yet Has Ever Discharged—Rose to Height of Fifty Feet—Attacked Four and One-Half Hours.

London, May 26.—Huge clouds of asphyxiating gas were thrown against the British lines east of Ypres Monday by the Germans, and the atmosphere was rendered so poisonous that a portion of the first line trenches had to be evacuated. Before the stifling fumes had been cleared away by a rising breeze the German forces had dashed in and so strongly occupied the deserted embankments that the allied forces have not yet been able to reoccupy them.

Resistance to Gas Encourages. While the attack entailed certain losses of not very great importance one fact of a highly encouraging nature was established. It is that over a considerable portion of the trenches the troops were able to withstand the suffocating atmosphere and retain their positions despite a vigorous onslaught. This fact is brought out in a report from Field Marshal Sir John French and is taken by him to indicate that the methods devised for resisting poisonous gases will shortly prove entirely effectual.

Never before have the Germans released a greater quantity of gas in any given area. It was emitted from cylinders over a front of five miles. At the same time asphyxiating gas shells were hurled into the British trenches. Sir John French's report follows:

Greatest Gas Assault Yet. "Some positions in our line east of Ypres, lost yesterday during an enemy gas attack, have not yet been recovered. The amount of gas used was greater than on any previous occasion extending over a front of five miles. The gas was emitted from cylinders during a period of four and one-half hours. At the same time our line was bombarded by asphyxiating gas shells until the gas cloud rose at places to a height of fifty feet from the ground.

"Portions of the line remained intact throughout the ordeal, and our men demonstrated that with due precautions this form of attack can be successfully met and defeated."

TO MAKE BLOCKADE STRICTER

Britain Promises Packers Expedition of Prize Court Cases.

Washington, May 26.—After a number of conferences between representatives of the Chicago meat packers and officials of the state department and British embassy there were indications that some progress had been made toward getting from the British government assurances that it would expedite consideration of prize court cases of meat cargoes seized and detained in English ports. According to the best information obtainable, however, nothing was accomplished in the line of getting Great Britain to relax the severity of her blockade.

On the contrary, it is understood that England intends to make her blockade stricter, statistics showing that the importation of meats into the Scandinavian countries far exceeds the normal.

ADELE BLOOD IS DIVORCED

Husband, Former Minister, Found Guilty of Charges.

New York, May 26.—Adele Blood, actress, secured an interlocutory decree of divorce from Cader Russell Davis, ex-convict, who gave up the ministry to become an actor, changing his name to Edward Davis. The decree was granted on evidence which proved to the satisfaction of Justice Page that Davis had been guilty of the charges made against him and Louise Power Bryant, his leading woman.

The court also exonerated the wife of the counter charges naming Franklyn Ritchie and Edward J. Mackey, actors.

PRETTY SOFT FOR CHEATERS

Oleomargarine Swindlers Multed U. S. Out of \$1,500,000; Fined \$2,500.

New York, May 26.—Although they pleaded guilty to oleomargarine frauds in which they are said to have cheated the government out of \$1,500,000, Charles E. Nolte and Fred D. Aetjen were fined only \$2,500 by Judge Hand in the United States District court. Through the fines and other measures the government recovered a total of \$1,500,000 out of which it was defrauded.

GERMAN WIRELESS HAMPERED BY STORMS

(Continued from Page 1)

Representatives in neutral countries and the German war statements have been uncensored.

The intensity of the static disturbances now occurring frequently increase the wireless distance between Sayville and Nauen to the equivalent of 2,000 miles. It is said, a handicap which the Nauen station, powerful as it is, cannot overcome. Messages that are made intelligible are the joint work of four receiving operators listening simultaneously, each getting what he can and placing fragments together.

The news agencies meantime have been obliged to depend upon London for regular transmission of the daily German war office statement.

BURLINGTON TRAIN CHANGES SCHEDULE

PAW PAW, COMPTON, WEST BROOKLYN PEOPLE AFFECTED BY CHANGE

Residents of Compton, Paw Paw, West Brooklyn and other towns on the Sterling-Shabbona branch of the Burlington will rejoice in a change of schedule effective next Monday of the morning passenger from Sterling, which many who have occasion to come to Dixon, patronize on their return home. The train will leave Sterling at 8:35 o'clock, instead of 6:35 in the morning, and patrons from Dixon will not be forced to take the first interurban car to make connections with the train at Sterling.

OBITUARY

Mrs. W. T. Sheadle, aged 86 years, a prominent resident of Rochelle, one of the county's earliest settlers, died at her home, Sixth avenue and Seventh street, early Sunday morning from the infirmities of old age. Mrs. Sheadle has resided in Ogle county 4 years, being identified with its rapid growth and grand development. With her husband she resided in Rochelle in 1871, forty-four years ago, residing here since.

She was born Jan. 29, 1829, in Millington, Union county, Pa., the daughter of Elias P. and Amelia (Antes) Youngman, natives of the Keystone state. She was one of thirteen children, all of whom lived to attain manhood and womanhood, except the eldest, Elizabeth, who died when 16.

July 4, 1861, Miss Youngman was married to William Thompson Sheadle, who died October 23, 1913. The couple lived in peace and comfort for 52 years. The children are Priscilla V., now Mrs. John T. Landsen, who resided on the homestead in White Rock township, and Rilla M., wife of Robert Brundage, of Somonauk, both of whom survive. Mrs. Landsen was with her mother when she died. Mr. and Mrs. Sheadle celebrated their golden wedding, July 4, 1911.

The deceased was a member of the Presbyterian church of Rochelle and a regular attendant. Always amiable, an ideal neighbor and friend, her loss is deeply felt. Her end was peaceful. Apparently she suffered no pain, the heart being affected.

The funeral services were held Tuesday afternoon from the late home.

S. W. Youngman of this city is a nephew of the deceased.

MUST TURN OUT LIGHTS

The Sterling city authorities have asked the management of the S. D. & E., to have the strong headlights of interurban cars turned out while the cars are running between Second avenue and Avenue B in that city. Auto drivers claimed the bright lights blinded them.

ENGLISH PAPER HAS COMMENT ON AMERICA

OBSERVER, PUBLISHED IN LONDON, SAYS THE U. S. IS NOT BOUND TO WAR.

WILL RESPECT OUR SOLUTION

Paper Says Man of Courage Is Not Bound to Return the Madman's Blow.

The London Observer, in London, England, publishes the following editorial in a recent issue concerning the British view of American action following the Lusitania disaster:

No one who thinks calmly and clearly will feel anything but sympathy with the government and people of the United States in the situation produced for them by the sinking of the Lusitania. American citizens have been killed, wantonly and deliberately, in defiance of all international law, in the exercise of their undoubted right to travel across the ocean as they please. If, we being neutrals, a similar outrage had been committed upon us a tempest of fury would have swept from end to end of the land.

But the course which the American people can follow is by no means as clear, and the obstacles in Mr. Wilson's path are so many and so dangerous that no one can fairly accuse him of pusillanimity if he decides that forcible action is denied him. We shall certainly not rank ourselves among those who urge the United States to abandon their neutrality. Great and grievous as is the wrong done to them we hold very decidedly that they have every reason for the most prudent restraint.

It is a profound mistake to think that, because the American people have not flown to arms to vindicate the cause of public law and humanity, they have taken no worthy part in the struggle. We can never be sufficiently grateful to them for the moral support which we have received from all that is greatest and worthiest in the American nation, and it would, in our view, be a blunder if they permitted themselves, in a moment of indignation, righteous though it be, to further the deep-laid plans of Germany by picking up the gauntlet thrown down to them. President Wilson is confronted with a very grave problem indeed in the presence of millions of American citizens of German birth among the population of the United States. We must never overlook this fact. It is not as is most unfairly said, a question of votes. It is a question of the internal peace and stability of the country for which he is responsible, and which it is his first duty to preserve. What action he and his government will think fit to take we do not know. Whatever it is, we shall accept it without any loss of respect for the great nation across the Atlantic. A man of proved temper and tried courage is not bound to return a madman's blow.

WAR INCREASES ARMS COMPANY'S DIVIDENDS

REPORTS SHOW THAT GERMAN CONCERNS ARE MAKING BIG PROFITS

Berlin, May 3.—(Correspondence of the Associated Press) The annual reports of a number of German companies manufacturing arms, ammunition, automobiles, and machine tools have been issued, showing to some extent the business resulting from the war.

The Ludwig Loewe Company of Berlin, which produces machine tools of American type, has just declared a dividend of 30 per cent, after having paid 18 per cent for 1913.

The Deutsche Waffen und Munitionsfabrik (arms and ammunition trust), which is in close business relations with the Loewe concern, is distributing \$1,430,000 in dividends, as compared with \$1,200,000 for the previous year. But this does not tell the whole story of its business success, for it increased its bank balances and outstanding claims by \$8,000,000.

The Daimler Motor company, which has a much smaller capital than the company just mentioned, doubled its bank balances and other reserves, raising them to \$3,570,000, and made a very large increase in its dividend. This concern subscribed \$1,200,000 to the new War Loan.

forth in the press by the annual reports of these companies, it being claimed that they left some matters involved in obscurity so as not to show what huge profits they are making from army contracts.

VETERANS HELD REUNION TUESDAY

Continued from Page 2.

Read and Ballou and Messrs. Elmer Rice and George Evans, and an orchestra composed of Miss Lillian Hefley at the piano and Harold Stackpole and Frank Salisbury as first and second violin.

The following menu was served: Chicken pie, mashed potatoes, cabbage salad, radishes, fresh tomatoes, Dutch cheese, deviled eggs, brown bread, rolls, pickles, jelly, strawberry shortcake, coffee and cream.

The parlors were artistically decorated with flags and the tables were adorned with huge bouquets of red poppies and greenery. The flowers were very generously donated by Mrs. A. K. Trusdell.

The Camp Fire

The Camp Fire, which was held in G. A. R. hall after the banquet, was started by a song by the above mentioned quartette, which gave several beautiful selections during the evening. The obituary committee was called upon for its report, which was read by Col. Dement, and which was as follows:

"At every yearly meeting of our regiment we learn of the death of some of our comrades since last we met. We that are left grieve to hear of the death of the following:

William Potter, Co. K, W. D. Walker, Co. D, Benjamin Frye, Co. G, G. W. Knowls, Co. G, Henry Woodyatt, Co. A, H. C. Palmer, Co. A.

With these men we enlisted at the first call that we received. With them we marched and fought and drank out of the same canteen—and we know that their lives and health were risked to save their country, nobly they did their duty in war and civil life and their lives have now been transferred from earth to "fame's eternal camping ground."

Comrades Henry D. Dement, Chas. W. Snyder and J. B. Lowry.

Captain Everest Talks

Captain I. J. Everest of Chicago was called upon and gave an exceedingly interesting talk on the great national military park at Gettysburg and also on the soldiers' homes that have been established about the country. He marveled that so many of the comrades were able to attend, as the average age of the veterans of the Grand Army of the Republic is over seventy years. The average age of the soldiers on enlistment was eighteen years.

Captain Everest said that there were 1300 acres in Gettysburg park and the grounds contained nearly five hundred monuments. There are 21 miles of boulevards in the park. The Confederate lines in the siege of Gettysburg were 8 miles long and the Union lines were 12 miles long, and the park lies between these two battle fronts.

Pleds for Memorial

Captain Everest pleaded with the comrades for a memorial statue of Colonel John B. Wyman the noble colonel of the old 13th Illinois regiment who died in battle. He offered to give \$25 toward the monument himself and said that such a memorial could be secured for about \$500.

Col. Dement Talks

Col. Henry Dement told of his joy at seeing his old comrades again. He pointed out one man whom he had last seen wounded in a battle field in the charge of Chickasaw Bayou at Gettysburg and alluded to Comrade Jed Shaw as one of the most in

PLAIN QUESTIONS TO DIXON PEOPLE

EVERY DIXON READER WILL ADMIT THE SOUNDNESS OF THE LOGIC

Would Dixon people recommend Doan's Kidney Pills as they do if the medicine were not reliable? Would they confirm their statements after years have elapsed if their experiences did not show the remedy to be de serving of it? Statements like the following must carry conviction to the mind of every reader:

John Edons, 812 W. Fifth St., Dixon says: "I suffered from a lame back and my kidneys were out of order. Doan's Kidney Pills, procured at Leake Bros. Co.'s Drug Store, removed the lameness in my back and regulated the action of my kidneys. Another of the family got permanent benefit from Doan's Kidney Pills." (Statement given July 5th, 1910.)

OVER FOUR YEARS LATER, Mr Edons said: "I still use Doan's Kidney Pills when I feel any symptoms of kidney trouble and they never fail to help me."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Edons had. Foster-Milburn Co., Props., Buffalo, N. Y.

TAKE 21,000 RUSS PRISONERS

Germans Claim New Offensive Success North of Przemyel.

Berlin, May 26.—(Via London).—General Mackensen has renewed his offensive against the Russians north of Przemyel and he captured 21,000 prisoners, according to the official statement given out in Berlin by the German war office. The report says: "The army under General Van Mackensen resumed the offensive yesterday to the north of Przemyel. The attack ended in entire success. The strongly fortified villages of Drohgow, Oatrow, Radymno, Wysocko, Wellin, Makowisko and the hills northeast of Dobrosska and east of Cetula were taken by storm. So far 153 officers and more than 21,000 men have fallen into our hands as prisoners, while thirty-nine cannon, including nine heavy guns, and at least forty machine guns have been captured by the Teutonic allies. The Russians suffered extraordinarily heavy losses."

VETERANS HELD REUNION TUESDAY

(Continued from Page 7)

teresting of the survivors of the war
days. He said "He didn't weigh
much, but he tramped to his duty ev-
ery day." He talked of the unknown
heroes in the Union army, the men
who fired the guns and stormed the
works and fell in the ditch or went
over to victory.

Comrade Snyder

Comrade Snyder of New York
city, told the interesting history of
his army overcoat, which he still pre-
serves, and which was of such great
comfort to him during the rigors and
hardships of army life. Comrade
Snyder said that the 13th Ill. reg-
iment is known all over the nation as
one of the best regiments in the
army.

Comrade Shaw of New York made
a few brief remarks and Comrade
Payne of Rock Island paid a nice trib-
ute to the hospitality of Dixon to-
ward the veterans. He said that Dix-
on started out by giving the best
class of men to the army in war days
and kept up her good standard by
treating the old soldiers better than
any city he knew of.

Rev. Altman gave a very inspir-
ing talk to the veterans and Frank
Stevens delighted the audience with
an exceedingly appropriate address.
Mr. Stevens, who is the son of one
of the heroes of the war, said that he
intensely enjoyed hearing history
first hand from the men who made it,
and added that Dixon always wel-
comes the soldiers.

Comrade Lowry told of his work
in Pullman as patriotic instructor,
and his talk also was very pleasing
to his hearers.

A vote of thanks was given to the
ladies of the W. R. C. for their hos-
pitality, and the meeting adjourned
until next year.

would like to buy their Pineapples for canning at the
cheapest price. This seems to be the reason they all
wait for a while when they first come on the market. As
the public commence to buy, the price advances. This
has been the history of the pineapple market for a num-
ber of years back.

It seems now that the public is buying and that the
market will advance slowly. Such is advice from South
Water St. The Cuban Pineapples are now on the market
and are the kind mostly canned here. Florida's will not
be on the market for two or three weeks yet.
